Product Technical Specifications

ECBT-MPUBTH

Earthing and short-circuit equipment
– Low voltage electric panels

Functionality

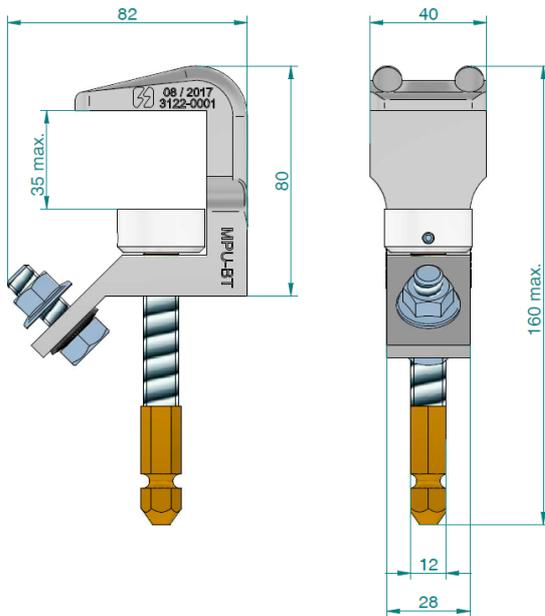

Earthing and short-circuit kit for low-voltage distribution boards. The main reason for their installation is to protect the worker from accidental power-on or return of voltage during repair work.

ECBT-MPUBTH

Earthing and short-circuit equipment – Low voltage electric panels

Product Features

The MPUBTH clamps for low tension are ideal to be fixed on 0-35 mm plates, with screw tightening.

Composed of

- 4 MPUBTH aluminium alloy clamps with screw tighten.
- 3 copper cables with PVC insulation of 35 mm² section and 0,6 m long.
- 1 copper cable with PVC insulation of 25 mm² section and 2 m long.
- 1 TT-38A milling earthing lathe.
- 1 insulated grip with polyvalent head.
- 1 plastic case to store and transport the equipment.

Certified

For the manufacture of this equipment is taken as a reference Standard **UNE-EN 61230**.
