Product Technical Specifications

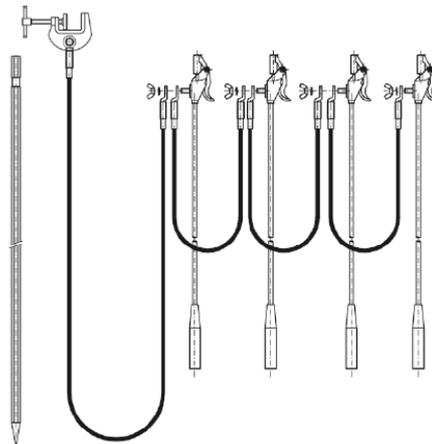

ELBT-PAT/CC

Earthing and short-circuit equipment
– Low voltage overhead lines

Functionality

Earthing and short-circuit kit for low-voltage distribution boards. The main reason for their installation is to protect the worker from accidental power-on or return of voltage during repair work.

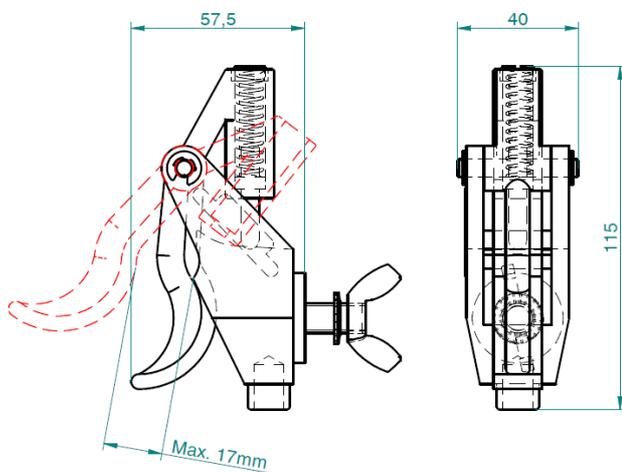

ELBT-PAT/CC

Earthing and short-circuit equipment – Low voltage overhead lines

Product Features

The ELBT clamp is fixed on the exposed conductor by supporting the clamp on it and exerting a downward pressure. The clamp mechanism guarantees permanent and firm contact.

Composed of

- 4 ELBT spring clamps with 70 cm poles for cylindrical conductors with diameter between 3 and 18 mm.
- 3 copper cables with PVC insulation of 16 mm² section and 0,6 m long.
- 1 copper cable with PVC insulation of 16 mm² section and 15 m long.
- 1 TT-38A milling earthing lathe.
- 1 earthing rod.
- 2 nylon bags to store and transport the equipment.

Certified

For the manufacture of this equipment is taken as a reference Standard **UNE-EN 61230**.

PEBT

TT-50
